Sir:

In the Statement of Reasons for Allowance in the Notice of Allowance, the Examiner acknowledges that the claims are allowable because certain features therein are not taught or suggested by the prior art. However, the language used by the Examiner in describing these exemplary features is not the same as the language contained in all of the claims.

For example, the Examiner states the prior art of record does not teach or suggest features which are recited in independent claims 1 and 3. Applicants submit that the language used by the Examiner to describe these features is not the same as what is recited in claim 3. The claims are patentable in view of the cited combinations rather than based on the individualized elements cited by the Examiner.

COMMENTS ON EXAMINER'S STATEMENT
OF REASONS FOR ALLOWANCE IN NOTICE OF ALLOWANCE
U.S. Appl'n No.: 09/555,046

Accordingly, Applicant submits that each individual claim is allowable based on its own language, and not based on any paraphrasing or addition of language that may be made by the Examiner. If the Examiner disagrees with Applicant's position, Applicant respectfully requests the Examiner to reopen prosecution.

Respectfully submitted,

Seok-Won Stuart Lee*
